

LARGE PACKAGE

FELBERMAYR ORDERS 600 MAGNI MACHINES

Austrian rental fleet company, Felbermayr, is expanding its rental fleet with an order of over 600 machines from the manufacturer Magni. The delivery includes a large package of scissor and telescopic boom lifts as well as telehandlers.

Included in the large order are 120 rough-terrain machines with working heights between 15m and 18m. The all-wheel drive scissor lifts with super deck and 680kg load capacity feature 4x4 all-wheel drive, oscillating axle, outriggers with automatic leveling, non-marking tires and platform extensions on both sides. The machines have been ordered as all-electric ES1523RTP & ES1823RTP as well as diesel version with Stage V engines DS1523RTP & DS1823RTP.

With regards to the telescopic boom lifts, the rental park was expanded by several machines including the electric articulated boom EAB28RT as well as the electric telescopic boom ETBJ30RT. The working heights are 28 and 30 meters, respectively. While the EAB28RT offers a load capacity of 250kg, the ETBJ30RT brings it to 300/454 kilograms. Both

models are equipped with 4WD, 4WS, oscillating axle, lithium battery 80V/520 Ah, non-marking tires.

The special scissor lifts include 28 machines with working heights between 22m, 28m, and 32m offering within the 22m model DS2223RTP - 750kg load capacity. All 3 models are equipped with 4x4 all-wheel drive, 4-wheel steering, non-marking tires and hydraulic platform extension. ■
